IMPROVED POSTAL SERVICE. Arloe and Clifton Heights to Have Three Deliveries.

People living in the Arice and Clifton Heights districts are soon to have a very great improvement in their mail service. Postmaster Baumhoff has decided to open a new carrier's station in the heart of Arice, and have three deliveries daily. The collections will also be more frequent. The new office is to be located on Old Manchester road and Tamm svenue.

The residents of the districts have been long suffering, and geserve the improvement. Heretofore there have been only two deliveries daily, and when the weather was bad and roads moddy the postman made only one visit. In parts of the district mail was delivered by a mounted postman, who covered a large territory. The new system will be in perfect working order by the first of next week.

Mother Saved Her Children-Husband Was Alarmed.

The one-story frame residence of Theo-dore Skinner, a half mile south of St. Louis, on Fanny avenue, was festroyed by fire Wednesday night. Skinner was away from home, and the family was asleep when the fire broke out. Mrs. Skin-ner was awakened by the odor of smoke. On making an investigation she found that the house was ablaze, in less than five min-utes she had aroused her small children and fied from the house unburt. The fur-niture was consumed. An alarm of fire brought out Engine Company No. 34, but the house was almost in ruins when it arrived. Skinner, who is employed in the Provi dent Chemical Works at Eighth and Poep-ping streets, on learning that his house was on fire, started to run to the scene, was on fire, started to run to the scene, but the excitement soon overcame him, and he fell unconscious to the street. A patrol wagon conveyed him to the office of Doctor Julian, at No. 763 Virginia avenue, who revived him. Skinner, when he awoke, immediately inquired about his family. On learning that they were safe he was greatly relieved. His condition is not serious.

Fellow Entered House With a Skeleton Key and Went About His Work Silently-Servant Made Discovery.

Burglars have done many desperate deeds n St. Louis, but probably the most insolent is the robbery of the home of Judge Willia H. Clark of the Court of Criminal Correct tion, at No. 4367 West Belle place.

Some time between 11:30 c'clock Wednesday night and 6 o'clock yesterday morning a burglar entered the jurist's house, and after ransocking his private room made his departure with \$182 of the Judge's money in his possession. There is no claw to the

Judge Clark retired shortly after 11 o'clock and, according to his custom, hung his trousers on the foot of his bed. In the pockets of the trousers were his gold watch and \$183, part of his month's salary, which he had drawn on Monday. The burglar went noirelensly about his task, for none of the occupants were aroused. The nocturnal visitor helped himself to the Judge's money, leaving the gold watch behind. She immediately awakened the Judge, who searched the trousers for his money, but it was gone. The watch was still in the fob pocket. The money consisted of five \$20 bills, seven \$10 bills, two \$5 bills and the balance in silver. Judge Clark does not remember the numbers of any of the bills and consequently could not identify them.

How the burglar gained entrance to the house is a puzzle. Judge Clark is positive he locked the front door before he went to bed, but it was unlocked when he tried it yesterday morning. It is believed the thief used a skeleton key. coney consisted of five \$20 bills, seven \$10

HOT WEATHER IN TEXAS.

The Cotton Crop Has Been Surprisingly Benefited.

REPUBLIC SPECIAL.

Dallas Sept. 6.—The weather thus far in September has been the hottest of any recorded in this city. Days and nights have corded in this city. Days and nights have been extremely warm in comparison with July and August. The thermometer has registered from 3s to 102 in the shade during most of the daytime for the last six days. Cotton has made marvelous progress. Farmers say that if the present weather conditions continue for twenty days Texas will make close to a record crop. This is a radical reversal from the outlook of three weeks ago. There are many well-informed growers, however, who still predict an early frost and a cutting off of the top crop. Colonel Jot Gunter raised 750 hales on his plantation last year. He said to-day that he expected to raise at least 1,50 bales this season, and if the weather continues as at present through September he will harvest close to 1400 bales. A Reliable Headache Cure.

Parker's Headache Powders have stood the test; they never fail. Price, 19 cents.

A World's Pair banner and a procession of sixty employes of a well-known manufacturing concern, located on Pine street, assailed the offices of the Board of Election Commissioners yesterday aftermoon and obliged the twenty registration clerks to surrender the entry books until the names of an army of sympathizers could enter the control of the

abreas, and the line of march extended along Pine street to Twelfth, and over Twelfth to the City Hall. It was a little past the noon hour, and the paraders were greeted with cheers from factory windows all along the route, and by the time their destination was reached the original band of sixty had swelled to an army composed of several hundred boys and men.

Secretary Hoblitzelle of the board was in his private office. The hurrahs and the din attracted him into the corridor, and a benism smile beamed through his eyeghases as he witnessed the spectacle of a big parade in the City Hall, and a banner reading. "Register to vote on the World's Pair bill." "That's the way to come," he said. "Let's have some more demonstrations like that. The amendment will surely get the three-sifths vote if public sentiment is stirred in the proper manner."

The banner was placed in a conspicuous place in the court east of the registration rooms for the edification of future arrivals.

SOME GENTLE REMINDERS.

Friends During His Honeymoon.

When Claude D. Hall of this city returns from his wedding trip he will find that his friends have not overlooked his marriage with Miss Jennie Sherwood. Mr. Hall and his bride are expected back to-day or to-morrow, and the manner in which his office in the Union Trust building is decounted shows that his friends are not forgetful. As was told in The Republic Hall and Miss Sherwood were quietly married and left the city without notifying their friends. They hoped thereby to escape numerous little attentions, which are embarransing, though customary, and the news of their wedding was a complete surprise to the acquaintances of both parties.

His business friends are determined that Hall shall have some reminder of the occasion, however, and the manner in which his deak is decorated is startling to say the least. It is pasted all over with hearts made of red paper, some of them being transfixed with white paper arrows. Rice is strewn along the top of the deak and white ribbons are tied to every available corner and to his chair. are fied to every available corner and to his chair. DOCTOR BRUERE ARRESTED.

Complaint Was Made to Police by His Wife.

Doctor John H. Bruere, formerly a City Dispensary physician, was arrested yesterday afternoon on a charge of disturbing the peace of his wife, Mrs. Belie Bruere, who lives at No. 3311 Lucas avenue. On Thursday morning, she says, he called at the house and struck her in the face and otherwise threatened her, because she had sued him for divorce. After the attack she called at the Four Courts, but was referred to Captain Gaffney of the Ninth District.

Bruere was dismissed from the City Dispensary staff for an attack on his wife in the surgical-room of the City Dispensary more than a year ago. Since then they have been living apart, and numerous disputes have followed. Mrs. Bruere has been supperting herself and two children by doing charitable work for the Red Cross Society.

> Dry goods jobbers were especially busy, as the heavy advance in the prices of raw cotton in the last few days has made the markets in all kinds of cotton goods exceedingly strong, and visiting buyers are en-deavoring to procure their stocks before further advances occur.

The run on cotton print-cloth was especially heavy, and all of the different jobbingouses report enormous sales. E. S. Lewis of the Hargadine-McKittrick Dry Goods Company, speaking of the fall trade, yesterday said: "The season has been the busiest on record in the dry goods trade of St. Louis. Our sales for the month of August were 25 per cent heavier than ever before, and the rapid advance in the price of raw cotton promises to make our Septem-ber sales even heavier. GOOD FOR EDWARDSVILLE. Illinois Glass Company to Locate

Three Hundred Employes There.

The Illinois Glass Company, operating their immense glass works at Alton, has made an announcement of great interest to the two cities of Edwardaville and Alton. The company desires 200 more employes and hes expressed a further desire that they be residents of the county seat, fourteen miles distant. Arrangements which will allow of this have been perfected and the plan will be put in operation at once.

The Illinois Glass Company in all its departments employs at Alton about 2,000 persons. There has been grent difficulty in finding houses for this number and there are seldom any to be had in the Bluff City. This inconvenience the company proposes to remedy at the start of the season, which opens this week and next. The Illinois Terminal Railroad, a steam line, now connects Alton and Biwardsville. The glass company has made arrangements whereby workmen who live in Edwardsville will be taken back and forth at a nominal rate. The trip of fourteen miles will cost 5 cents, or \$\mathbb{S}\$ a month, practically the same as street car fare.

R. L. Stevens, a representative of the glass works, was in Edwardsville yesterday going through the preliminaries, before opening a regular bureau for the employment of men. He received much encouragement and fully believes that the plan will be a success. Three Hundred Employes There.

PETER LEPERE'S WILL FOUND.

Important Document Had Been Put Carefully Away and Forgotten.

The will of Peter LePere, who died recently at his home in Kirkwood, has been found. The document was executed shout three months ago in Clayton, and when Mr. LePere returned to his home he gave it to his wife. Mrs. LePere had forgotten where she put it, and did not remember until after a most thorough search had been instituted. To his daughter, Louisa Heege, wife of Albert Heege of Clayton, the testator left a farm on the Fredericktown road, containing 500 acres; to his son, Henry, the farm he is now living on; to his son, Jacob, a farm of 150 acres; and to his son, Edward, the homestead on the Manchester road on condition that he pay \$2,900 to his sister, Mrs. Charlotte Sauter. The latter, in addition, receives what is known as the Harrison farm.

NATURE STUDY IN SCHOOLS. Carrington Makes Recommendation to Farmers' Institute.

REPUBLIC SPECIAL.

Cameron, Mo., Sept. 6.—The State Board of Agricultural closed here to-night a very successful two days' farmers' institute. Colonel G. W. Waters, Doctor H. J. Waters, Professor J. C. Whitter and Doctor D. F. Luckey, State Veterinarian, lectured on subjects of interest to the farmer and stock raiser.

W. E. Carrington, State Superintendent of Public Schools was also present and last night delivered an address on, "What the Public Schools Should Do for the Farmers' Sons, and Daughters." A system of nature study which leads to a better understanding of agricultural pursuits is strongly advocated by Mr. Carrington, The institute was well attended.
